

52. The composition of claim **50** wherein the at least one pharmaceutical excipient is selected from diluents, binders, glidants, lubricants, disintegrants, colors, flavors, sweetening agents, polymers, waxes and other solubility-retarding materials.

53. The composition of claim **49** wherein the composition is formulated for intravenous administration.

54. The composition of claim **54** wherein the at least one pharmaceutical excipient comprises a sterile solution of sugars, amino acids or electrolytes.

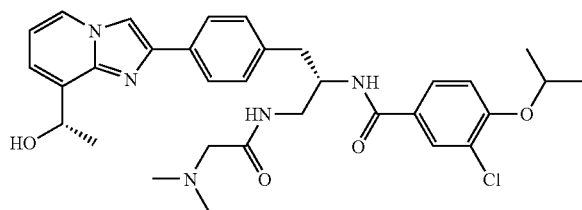

55. The composition of claim **54** wherein the at least one pharmaceutical excipient is water for injection USP.

56. The composition of claim **48** wherein the composition is formulated for parenteral administration.

57. The composition of claim **56** wherein the at least one pharmaceutical excipient comprises a sterile solution of sugars, amino acids or electrolytes.

58. The composition of claim **56** wherein the at least one pharmaceutical excipient is water for injection USP.

59. A compound of the formula

60. A composition comprising at least one pharmaceutical excipient and a compound according to claim **59**.

61. The composition of claim **60** wherein the composition is formulated for administration by a route chosen from oral, subcutaneous, intravenous, intranasal, transdermal, intraperitoneal, intramuscular, intrapulmonary, vaginal, rectal, and intraocular.

62. The composition of claim **61** wherein the composition is formulated for oral administration.

63. The composition of claim **62** wherein the composition is formulated as a tablet, capsule, or liquid.

64. The composition of claim **62** wherein the at least one pharmaceutical excipient is selected from diluents, binders, glidants, lubricants, disintegrants, colors, flavors, sweetening agents, polymers, waxes and other solubility-retarding materials.

65. The composition of claim **61** wherein the composition is formulated for intravenous administration.

66. The composition of claim **65** wherein the at least one pharmaceutical excipient comprises a sterile solution of sugars, amino acids or electrolytes.

67. The composition of claim **65** wherein the at least one pharmaceutical excipient is water for injection USP.

68. The composition of claim **60** wherein the composition is formulated for parenteral administration.

69. The composition of claim **68** wherein the at least one pharmaceutical excipient comprises a sterile solution of sugars, amino acids or electrolytes.

70. The composition of claim **68** wherein the at least one pharmaceutical excipient is water for injection USP.
